

Wylde Swan is hiring:

Engineer

starting August 1st 2020 until August 1st 2021

Wylde Swan Crew

The Job

As engineer you take care of all the technical equipment on the Wylde Swan. You make sure that regular maintenance is executed and you will do all necessary repairs.

About the Wylde Swan

The Wylde Swan is a 59 meter topsail schooner and a very fast sailor. We sail around half the world with educational programs (Masterskip) for high school students from November until May. The other part of the year we join in tallships races, host corporate hospitality events at the highest level, work together with an organisations for leadership voyages and we sail with individuals in different countries. Wylde Swan employs 40 persons: Officers, bosuns, engineers, deckcrew, cooks, service crew and office personnel.

Your Skills

- You are familiar and experienced with all usual ships equipment like:
- Pumps, diesel engines, cooling and heating systems, RO-watermaker, electricity, hydraulics
- You are also prepared to help in other departments when necessary
- You are in possession of a valid STCW Certificate of Competence: Rating deck

Our offer

- A contract for the specific term of 1 year
- 2:1 work-leave ratio mostly 3 month on - 1 ,5 month of
- 1.800,00 gross wage
- Flights and usual expenses are compensated

Your work

- Regular maintenance program
- Emergency repair
- Advise captain and superintendent about technical affairs

Interested?

We look forward to receive your application before the 30th of June: info@wyldeswan.com
